Press Release

To: Area media outlets

From: Hampton Police Department

Re: Hampton PD Update (Covid 19)

The Hampton Police Department is committed to providing the best services we can to the public. In order to ensure we can continue to serve the public we are taking steps aimed to prevent the spread of the Coronavirus Disease to protect our officers and the general public.

We are encouraging our officers to practice social distancing when feasible to do so. We will not be providing fingerprint services to the public until further notice. For the time being, we are encouraging our officers to conduct business over the phone or from a safe distance when possible. For all non-emergencies we ask that you call the Department and ask to speak to an officer.

Public Safety continues to be our top priority and the Hampton Police Department WILL continue to respond to all Crimes in Progress and Crimes against Persons in the same manner.

We greatly value the tremendous relationship we have with our community and ask for your cooperation as we work through this issue together.
